

EVANGELOS VALASSOPOULOS

Software Engineer

Software Engineer with a strong foundation in backend systems, automation, and problem-solving, combined with an MSc in Software Engineering (Mobile & Web Apps). Actively focused on iOS development, with hands-on experience in Swift and Xcode through projects such as a SwiftUI-based GuessGame and a song identification tool using Shazamio. Passionate about continuous growth and building scalable, user-focused applications, with a clean and maintainable coding approach. Motivated to grow as a Mobile Engineer and continuously evolve through real-world challenges and modern technologies.
